

# FERNANDO AMEZCUA

TECHNOLOGIES INFORMATION ENGINEER

## PERSONAL PROFILE

Hello there, I am IT Engineer, I love technology, innovation and make contributions on open source projects..

on my developer career I have learned many stacks and soft skills that allow me to create web and mobile apps.

I use the scrum methodology for almost all projects even though I have been in teams that use the toyota gemba methodology.

I am always open to learn new stacks, libraries or stuffs required to make the projects with quality and optimization.

## PERSONAL SKILLS

- Diligent worker
- Quick to respond to issues
- Problem-solver
- Creative and flexible when necessary
- Easily approachable
- Great teacher and mentor
- Open Source contributor
